I

A. Read the following text and choose the headline that best conveys the central idea:

1. Mark's major school subjects
2. Mark: the picture of a normal teenager
3. Mark: the picture of a football fan
4. Mark's favourite free time activities

Mark, 15, lives in Bridgend, Mid Glamorgan, Wales, with his father, his mother, and his 11-year-old sister, Edith. He attends a local school.

"I'm doing GCSEs in Business Studies, Computers, Geography as well as the compulsory subjects - Maths, Science and English. I like the Computers and Business Studies the best. We learn all about industry and company structures. I think you have to learn about computers if you are going to get a job these days.

5 I think I'd like to stay round here when I'm older but I just don't know if there's the opportunity to work. My mum wants to move because things are getting a bit rough round here. Last summer there was a police patrol every night, and it's not that safe any more. When we first came here it was all right, but there are drugs in the neighbourhood now. But when you've lived somewhere all your life it's difficult to move on.

10 I spend a lot of time at home with my family. Dad and I both support Manchester United so we watch the games and talk about football quite a lot. We get on well.

We get a lot of projects to do as part of school work so that takes up a lot of free time. On a school night, I have to be in by about 8 o'clock. There's not a lot to do round here so I don't mind. Weekends, I can stay out until 10.

15 I'm really fussy about clothes and the way my hair looks. My mum buys all my clothes but I tell her what to get me. All the lads at school wear the right jeans and tops.

In my free time I like to play with the boys, go out and kick a ball about or play cricket. I've got a Sony Megadrive upstairs which I used to play a lot, but now I only use it a bit when it's raining."
